

PROJECT NML
Ph.I: Module Generator
Elements

ELEMENT: video

TASK:

- verify that you hold rights to publish this video online (is this yours? did you make this? something like that)
- upload video [will we allow for different codecs, formats here?]
- type in title for video
- choose how to license your video for others to use or reference [offer link to information about Creative Commons]
 - all rights reserved
 - various Creative Commons licenses [we can offer the CC choices by copying the code snippet from their license chooser. <http://wiki.creativecommons.org/marking>]
- share your comments about this video – type in text here [do we want this? Depends on where this text would go. If we use a viddler interface for videos, then comments about videos can be entered as tags on the video timeline itself.]

ELEMENT: blog post [we would need to build a template for this element]

TASK: choose “regular” (one person’s text) OR “interview style” (2 or more people’s text)
IF “regular”

- upload image of you (can we automate this so that the user’s image is used?)
- upload other relevant image (optional)
- type in text of blog

IF “interview style”

- upload image of you (can we automate this so that the user’s image is used?)
- upload image of interviewee(s)
- upload other relevant image (optional)
- type in text of blog (“interview style” would offer text boxes for 2 or more people)

ELEMENT: image file

TASK: this could be a drawing they scanned, a screenshot resulting from an NML activity

- verify that you hold rights to publish this image online (is this yours? did you make this? ...something like that)
- upload image
- type in title for image
- choose how to license your image for others to use or reference [offer link to information about Creative Commons]
 - all rights reserved
 - various Creative Commons licenses [we can offer the CC choices by copying the code snippet from their license chooser. <http://wiki.creativecommons.org/marking>]
- share your comments about this image – type in text here

ELEMENT: text file – this could be where we/they would upload a pdf for OFFLINE activities, such as a list of discussion questions or the rules for a role-playing game.

ELEMENT: audio file

TASK: Upload your audio file [PROVIDE ACCEPTABLE FORMATS]

DRAFT FOR ELEMENT PAGE
Using Blog Template as Example

NOTES:

Each Element will have its own set of instructions based on any restrictions, as mentioned above.
Elements will be linked to a NML skill and appear in user's gallery as well as

CREATE YOUR OWN ELEMENT:

Select Element:
